

## PHYSICAL HEALTH SERVICES POLICY

---

It is the policy of MSUCOM that students may seek diagnostic, preventive, and therapeutic health services at the provider of their choice. The following information is provided as a resource to assist students in seeking health care services that are available as students enrolled at Michigan State University and in locations throughout the Statewide Campus System network.

### **Healthcare Professional Student Immunizations and TB Testing**

The Office of the University Physician (UPHYS) determines requirements for immunizations and tuberculin testing; requirements are published on the UPHYS website at <https://uphys.msu.edu/resources/healthcare-professional-student-immunizations>. Requirements are based on the recommendations of the Centers for Disease Control (CDC) for individuals participating in a medical or veterinary healthcare program. MSUCOM students are required to have their vaccination records on file with the Office of the University Physician. Students who need vaccinations or TB testing may obtain them through Olin Health Center or their primary care physician.

### **Olin Health Center**

All MSUCOM students may seek health care services at Olin Health Center, MSU's student health center. The main clinic is located on North Campus in East Lansing. The health center also offers "neighborhood" locations across the main MSU campus; the location closest to Fee Hall is located in room 127 South Hubbard Hall. For more information, including details on after hours options near the East Lansing campus, visit <https://olin.msu.edu/>.

Available on-site services offered at Olin Health Center include:

- Primary and specialty care
- Laboratory and radiology services
- Immunizations
- Nutrition and wellness counseling
- Women's health
- Work-related injuries include blood-borne pathogen care
- Patient portal

Additional services offered 24-7 include:

- 24-Hour Nurse Information available at (517) 353-5557

## Emergency Care

In case of an emergency, students should call “911” for local emergency services. The nearest emergency room locations by preclerkship site are as follows:

East Lansing:

McLaren Greater Lansing 2900 Collins Road, Lansing , MI 48910 (517) 975-6000

<https://www.mclaren.org/main/emergency-services>

University of Michigan Health - Sparrow Hospital Emergency Department

1215 E Michigan Ave, Lansing, MI 48912 517-364-1000

<https://www.uofmhealthsparrow.org/departments-conditions/all-departments/emergency-medicine>

Macomb:

Henry Ford Macomb Emergency Department

15855 19 Mile Road, Clinton Township, MI 48038 (586) 263-2300

<https://www.henryford.com/locations/macomb>

Detroit:

DMC Detroit Receiving Hospital - Emergency

4201 St. Antoine Boulevard, Detroit, MI 48201 (313) 745-3000

<https://www.dmc.org/locations/detail/dmc-detroit-receiving-hospital---emergency>

## Additional Resources in Southeast Michigan

MSUCOM students may access physicians, laboratory and diagnostic imaging, and other services at the following local affiliated sites, or at the location of their choosing.

Detroit: Detroit Medical Center (DMC) Multiple locations in Detroit, Michigan. Provider

Directory: <https://www.dmc.org/locations>

Macomb: Henry Ford Macomb Hospital 15855 19 Mile Road, Clinton, MI 48038 Provider

Directory: <https://www.henryford.com/physician-directory/>

McLaren Macomb Hospital 1000 Harrington Street, Mt. Clemens, MI 48043

<https://www.mclaren.org/macomb/mclaren-macomb-home>

## Medical Care at Clerkship Affiliates

During clerkship rotations, MSUCOM students may seek routine or emergency care, laboratory and diagnostic services at the provider or hospital of their choice. Students may wish to seek services at their base hospital. Please see each hospital’s website for details on services provided. Location and telephone numbers are listed below. Students should provide their health insurance information for billing purposes.

**Injuries and Exposures**

For work related injuries, including blood-borne pathogen or other exposures, while at a clerkship location, MSUCOM students should follow local hospital protocols for evaluation and management. Students should provide their health insurance information for billing. Costs related to an exposure that are not covered by the student's insurance may be covered by MSUCOM. Students must file the appropriate report (see policy on exposure protocol).
